Team 7 – Status Report 11/13/2023
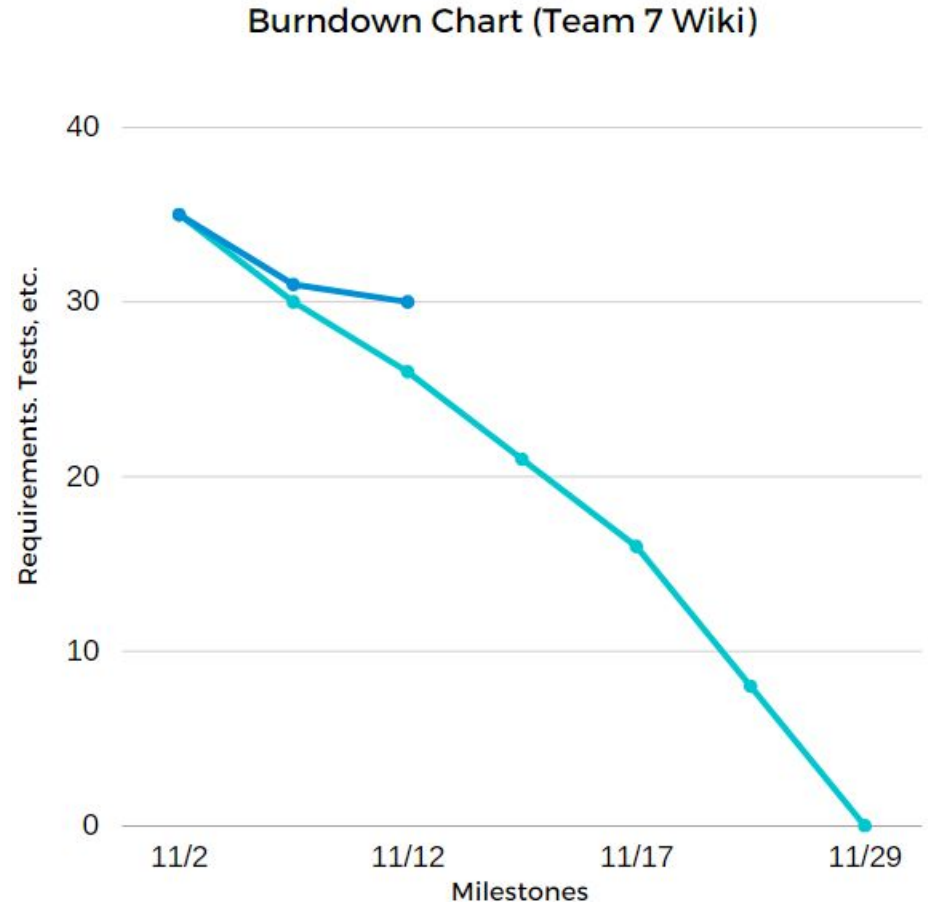

By: Randy Harris, Kenneth Barth, Joel Lian, and Quan Vu

By the numbers:

- We have written 280 lines of code (7612 total).
- We have finished 1 epic requirement.
- We have finished 8 sub-requirements.
- We have completed the user registration feature (internally labeled as FeatID #2).
- We are still currently on track to complete everything before December 1st.

Burndown Chart:

Burndown Chart (Team 7 Wiki)

Setbacks and risks moving forward:

Setbacks:

- Due to a pre-analyzed risk we have moved the completion of implementation and unit testing for the file upload/download feature (internally labeled as FeatID #1) to 11/17 (Milestone 4 deadline).

Future Risks (not added previously):

- Personal Duties/Responsibilities
- Thanksgiving Holiday

The coming week:

In the coming week we plan to:

- Finish implementation of FeatID #1.
- Finish unit testing for FeatID #1 and #2.
- Make headway on integration, regression, and acceptance testing for FeatID #1 and #2.
- Have all current milestones completed before the holiday week.
